**European Commission  
Directorate General for Research and Innovation**

**Declaration of Commitment of the Scientific and Research Centre for Fire Protection - National Research Institute for the European Charter of Researchers and the Code of Conduct for the Recruitment of Researchers**

The Scientific and Research Centre for Fire Protection - National Research Institute (CNBOP-PIB) represented by its Director Col. Dariusz Wróblewski, Ph. D, Eng., welcomes and entirely supports the Recommendation of the European Commission 2005/251/EC on "The European Charter for Researchers" and "The Code of Conduct for the Recruitment of Researchers" (hereinafter referred as the Charter and the Code).

By signing the Charter and the Code, CNBOP-PIB recognizes the value of their principles and voluntarily commits itself to apply them.

The principles of the Charter and the Code are in the line with CNBOP-PIB policy aiming to increase institution's attractiveness to researchers by offering them a favorable working environment, enhancing the quality of research and innovation and boosting international mobility. Some of the general rules of the Charter and Code have already been implemented and are common practice at our institute.

By implementing the Charter and the Code CNBOP-PIB intends to foster international collaboration and contribution to the development of an open and attractive European market for researchers.

We believe that dissemination and implementation of the principles of the Charter and the Code serves the best interests of Polish scientists and the progress of science in Poland.

Kind regards,

Col. Dariusz Wróblewski, Ph. D, Eng.
